

Two-Minutes Can Make A Big Difference on the Field and in Life

Statistics paint an unfavorable picture for minority men, especially African American men. Only 54% of African American men graduate from high school and despite comprising only about 12 percent of the American population, they constitute about 40 % of the prison population. On July 16 -18, 2015, TLRH, Inc. is assembling a team of coaches, mentors, and champions in a unique training conference environment, designed especially to inspire, motivate, and empower at-risk men.

"The Two-Minute Warning Conference: Game Changing Power Plays" is a unique, interactive, conference designed to mentor, motivate, and impact at-risk men. In football, the last two minutes of the game are critical. At two minutes, the clock stops and the entire team (coaches, players, etc.) prepare to initiate their two-minute offensive strategy. We recreate the "sporting" culture in order to impact the lives of men, in Hampton Roads. Men who find themselves at a deficit will benefit from the sage advice, coaching, and encouragement of successful men and women. Participants will receive life coaching -- an essential part of any life game plan.

Our Two-Minute Conference begins on July 16th with an opening pre-conference reception followed by two days of workshops that are designed with a sports-related theme.

A LIFE CHANGING OPPORTUNITY

2 Days of Workshops

The Two-Minute Warning Conference will provide two-days of interactive workshops, to include breakout sessions for youth ages 13 – 19. The sessions, led by successful men and women we call “gladiators” will challenge attendees, provide them with “life” plans and strategies that will enable them to navigate with ease through life’s challenges.

Men who are at-risk will gain the insight and knowledge that will show them that the same type of discipline that brings success of the field will ensure success at home, at work, and in the community. Our workshops will be hard-hitting, no-excuse making sessions that identify the sloppy playing of the past and propel attendees forward to a brighter future.

The workshops begin on Friday at 8:30 and on Saturday at 9:00 a.m. The conference is a high-energy event that will keep your attention and start a fire that will last for years to come.

After the conference, we will keep the momentum going by providing virtual mentoring, video conferences, and onsite training sessions. Show up on July 16–18, 2015 and watch your life season change!
